Dear Client,

Here at New England Rare Coin Galleries, it has always been one of our primary goals to encourage our customers to seek knowledge about numismatics. Since you may be spending a great deal of your energies (and probably some money too!) on your coin collection or investment portfolio, shouldn't a reasonable portion of that energy and money be invested in learning about coins?

Obviously, most will agree that this makes sense from both a profit viewpoint and in terms of enjoyment. More knowledge will help you to make better buys, and will also result in the achievement of greater satisfaction from your coins.

Our "pushing" of this philosophy, frankly, does have a somewhat selfish motive. The fact is (and we take pride in this fact) that most of America's most knowledgeable numismatists are N.E.R.C.G. customers! We proudly feel that the reason for this is that it takes a certain amount of numismatic knowledge to really appreciate the consistent quality and value that we deliver.

We have taken a number of steps toward encouraging our customers to become students of numismatics, and frankly, I am hoping that other dealers will do the same. First of all, we recommend that anyone buying coins for collection, investment, or both, become a member of the American Numismatic Association. This is America's largest coin organization, founded in 1891. Their membership fee is most reasonable (in fact it is an incredible bargain when you consider what it includes!). Becoming a member will expose you to virtually all aspects of numismatics. Their monthly publication, the NUMISMATIST, contains many interesting and enlightening articles about many different forms of collecting, teaching you how to detect counterfeits, coin processing or "whizzing" and other problems to watch out for. They also offer free to members, a 48 page Introduction to Numismatics and the Dictionary of Numismatic Terms. We staunchly support the A.N.A. Code of Ethics (and you should too -- it protects you!). Whenever we have space, we try to print an A.N.A. membership application in our mailer. This issue, the application (and other information about the A.N.A.) can be found on pages 45 & 46.

Second, we advise: "Buy the book before you buy the coin." If you are going to spend, say $200 on a coin, doesn't it make sense to spend $5 or $10 or more on books which will help you learn about that coin? The more knowledgeable you become about coins, the more you will appreciate the beauty, rarity and history of the coins you own. You will also be able to make better decisions about which coins you should buy, and what constitutes the best value for your money. In this issue, we present a nice selection of numismatic books. I hope you will take the time to order (and read!) those which interest you.

Finally, in our last mailer, we introduced a new feature which has proven quite popular. It is a COIN QUIZ. We have prepared another coin quiz for this issue. It is designed to be quite difficult, so don't be discouraged if you don't do that well on it. (But you can be proud if you do!). Numismatics is a fascinating field, and there is so much to know. We will try to print a new coin quiz at least once every two or three issues of our mailer. (We'll run one every issue if we have space.)

THE N.E.N.A. AUCTION

Did you know that the New England Numismatic Association is one of America's oldest numismatic organizations? It was founded in the 1930's, and it has always been one of our most respected coin associations. Like the A.N.A., N.E.N.A. holds a numismatic convention every year and rotates its location to a different city each time. N.E.N.A. conventions are always worthwhile coin shows, but every five years or so, the N.E.N.A. convention is held in Boston, which is the undisputed numismatic center of New England, and traditionally one of America's most historic and numismatically important cities. Couple this with the

fact that N.E.N.A., and A.N.A. are the only major organizations which sponsor coin conventions in Boston (totalling an average of about one show every three years!). Whenever the N.E.N.A. convention has been held in Boston, it has always become one of the year's most important numismatic events.

This year's N.E.N.A. convention will take place in Boston, at the Copley Plaza Hotel, November 6 - 9. Our newly formed affiliate company, New England Rare Coin Auctions, has been awarded the privilege of conducting the auction sale in conjunction with the N.E.N.A. convention. This will be the first major numismatic convention to be held in Boston since the incredible 1973 A.N.A. We hope you will plan to attend both the convention and our sale. We will be happy to make hotel reservations for you. All lots will be on display at the show. Some of the more outstanding of the early consignments received already, include the rare Fugio Cent (1787) with UNITED above and STATES below in Brown Unc., a beautifully toned Uncirculated 1796 quarter, and the excessively rare 1847/6 half dollar in EF 45.

We will be accepting consignments for this auction until the August 25th deadline. We anticipate an outstanding sale. New England Rare Coin Auctions, Inc., will have the resources of New England Rare Coin Galleries' unsurpassed clientele, and numismatic experience, reputation and knowledge. A beautiful catalog and an all-out promotion campaign will add even greater results. And since this will be our first sale (and we want it to be a record-breaker) we are offering especially attractive commission rates for this sale only. If you have choice and rare coins or currency (U.S. or foreign) to consign, call or write us today. Or if you prefer, bring the coins with you to the A.N.A. convention in Los Angeles. We will be accepting consignments there.

INVESTING IN RARE COINS

One of our most successful (and most satisfying) methods of selling coins has been through our investment program. Over the past few years, we have seen many of our clients make excellent profits buying rare coins for investment. We currently have two investment programs. One is a lump-sum plan, and the other is a monthly investment program. More information about this plan can be found on pages 47 & 48 of this issue.

In addition to selecting the coins that we think are best suited to your needs, our investment counselors also prepare a description of each coin, and their reasons for choosing it for you. We try to make the program at least somewhat educational in addition to being profitable.

We have received many very gratifying comments from the subscribers to our program. Why not give it a try yourself? In my opinion, there is no better long-term investment available.

FOREIGN COINS DIVISION

The response to our recently formed foreign coins division has been gratifying to say the least. We have had nothing less than amazing response to every foreign coin listing we've issued so far. The reasons? Well, for one thing we have tried to emphasize top quality in all of our listings. We have also attempted to price all coins fairly and competetively. But, I think the main reason is that people can see how underpriced most top-condition foreign coins really are. Frequently, uncirculated coins with mintages of a few thousand will sell for $15-$20 or less! Here is a market which is really still in its infancy.

In order to keep up with the ever-increasing demand from our foreign coins customers, I'm proud to announce that we have hired David Cannon (formerly of Louisville, Ky. and Dallas, Texas) to run our foreign coins division. I consider Dave's knowledge on the subject, his grading ability, and his ethical standards to be among the best in the business. I feel that he will be a tremendous asset to us and to our valued customers. If you have had the pleasure of doing business with Dave (and most of America's and Europe's leading buyers of world coins have been dealing with him on a regular basis), I'm sure you will agree.

All of our foreign coins will be graded by the strictest European standards. I personally find Dave's steadfast conservative approach to coin grading both unusual and refreshing in these days of the "call it anything you can get away with" philosophy.

U.S. collectors will find that building a foreign collection as a sideline can be a very fascinating (and profitable) hobby. My personal favorite is Great Britain coinage by type. Why not pick your own favorite and give it a try?

Since we are basically just getting started in the foreign coin field, we are necessarily in the process of starting to build an inventory. You will notice that our listings will become more comprehensive with each mailer or catalog we issue. For this reason, if you have a nice collection or group of foreign coins for sale, you would probably do well to contact us, particularly if the collection contains predominantly AU or better condition pieces.

THANK YOU

Once again, thank you for the tremendous response you've given our listings, and for all the nice comments and support of our policies and business practices. It is always our pleasure to serve you!

Best regards,

Jim Halperin
President

NUMISMATIC BOOKS

New England Rare Coin Galleries is offering for sale a selection of numismatic books. We have always encouraged our clients to inform themselves as much as possible about the coins they are buying. This is not entirely without motive. The fact is that most of our customers are very knowledgeable about the coins they buy from us. We feel that this is because it is the most knowledgeable buyers that are best able to recognize the consistent quality and value that we deliver. So there is a somewhat selfish reason that we advise: "Buy the book before you buy the coin." Often the book turns out to be the biggest bargain.

CHOICE COINS FROM

NEW ENGLAND'S LARGEST

AND MOST ACTIVE RARE COIN DEALERSHIP

OUR POLICY

Here at New England Rare Coin Galleries, the emphasis is always on quality since we believe that top quality more than pays for itself in the long run. If you agree with our philosophy, then we surely have what you are looking for!

QUALITY AND VALUE

We grade all of our coins accurately and conservatively, and if there is an doubt, we always grade in the customer's favor. Quite often our "AU" coins will be equivalent to or better than, coins offered as "BU" or even "Choice BU" by some other coin sellers. All coins are described as fully and accurately as possible and since we don't believe in pushing grades or ignoring defects, weak strikes, minor scratches, nicks or signs of cleaning are always mentioned.

This is why our prices may seem higher at times, so if you are shopping prices, make sure you shop grading standards as well. An overgraded coin is seldom a bargain, even at so-called "bargain" price.

The very fact that many of America's leading and most knowledgeable dealers, collectors and investors continue to buy at an ever increasing rate from N.E.R.C.G. should be testimony to the fact that we do indeed offer you the best possible value per dollar spent on today's market.

EXPERTISE

Our staff is comprised of some of America's finest and most knowledgeable numismatists who can guarantee authenticity because they know the difference. In fact, members of our staff are often called upon as consultants in authentication by museums, government agencies and other coin dealers. Members of our staff stay in constant touch with the coin market by attending virtually every major coin show and many major auctions. We are members of the F.A.C.T.S. national teletype circuit and thus have extensive direct contact with all aspects of the rare coin market. We understand the true values of rare coins which gives us the ability to offer our customers meaningful advice as to which coins are likely to prove to be the best possible investment. Rather than base our advise solely upon mintage figures which can be misleading, we prefer to base it upon true rarity, current demand versus anticipated future demand, past performance and several other aspects of market trends.

With our help, our customers have made tremendous profits by investing in rare coins. In fact, the gains made by our investment clients have far outpaced the coin market in general.

PROFESSIONAL INTEGRITY

New England Rare Coin Galleries' reputation for delivering quality, value and service is second to none and has made us one of the most respected names in the industry.

Jim Halperin and Russ Vaughn of our staff are currently among the nation's leading membership recruiters for the American Numismatic Association. Members of our staff are also members in good standing of such national numismatic associations as B.R.N.A., C.S.N.A., G.E.N.A., M.A.N.A., R.C.D.A. and many others. Also, for the past three years, our firm has received the Krause Publications (Publishers of "Numismatic News" and "Coinage" magazines) Customer Service Award.

We consistently offer correctly graded coins at fair prices because at N.E.R.C.G. we are looking for long term repeat business, not one time sales. Our policy of offering sincere advice to our clients, rather than touting the investment potential of coins we don't really feel are good values, has payed tremendous dividends to our clients and ultimately to ourselves as well.

SERVICE

We are here to meet your every numismatic need and can offer you competent advice on virtually any aspect of numismatics or the rare coin market. We are always in a position to obtain the items you desire for your collection or portfolio.

We feel that our mail order service is unsurpassed in the rare coin industry since all orders are processed and mailed to you the same day they are received. All packages are shipped fully insured or registered and all non-local orders are sent via AIR MAIL. We know you don't like to wait any longer than necessary to receive your coins and that is why filling your orders quickly and efficiently is so important to us. If you try our service, we guarantee you will be pleased.

WANT LISTS

Nearly half the coins we handle never appear in an advertisement or catalog. Instead, they are sold immediately upon purchase to customers who have sent us their want list, since at N.E.R.C.G., want lists are serviced, not ignored. If you are looking for a particular coin, or coins in a particular grade, please send us a list and we'll do our best to locate them for you. Of course, there is never any obligation on your part.

INVESTMENT COUNSELING

Members of our staff are always in a position to advise you as to the coins which we feel will offer you the best return per dollar invested based on your anticipated holding period. We are extensively involved in all phases of the coin market and no one is more qualified than we to recognize truly scarce and underpriced numismatic items.

Although we do not recommend the purchase of rare coins as a short term investment, we feel that for long term investment, no better medium exists. Investment packages can be tailor made to your individual needs and if you would like to discuss this service, please call us and ask for Christopher Tracey.

SELECTION

We actually have greater difficulty in purchasing quality coins than we do in selling them. Fortunately, our sources in this regard are nearly unsurpassable. Many of America's leading dealers and collectors regularly call on us with rare and desirable numismatic properties. Our high volume, low margin of profit business allows us to pay competitive and often record breaking prices for rare coins.

Members of our staff attend virtually every major coin convention and examine several million dollars worth of coins each week so that we may bring our customers the very best values from other dealers' inventories.

As a point of interest, we do not hold back portions of our inventory and keep the best investments for ourselves as many dealers do since we feel that our valued customers deserve to profit from this incredible market. In fact, all of our new purchases are immediately available for sale as soon as we catalog and price them.

Our inventory, which consists of approximately two million dollars worth of numismatic United States coins alone, is one of the largest and most comprehensive in the nation. Our business is to meet our clients' needs and we think we do an excellent job of it.

ALTERNATE CHOICES

We attempt to price and grade all our coins to be outstanding values, so naturally, choice, desirable coins that are priced to sell (and most of the coins which we offer for sale fit into that category) cannot be expected to remain unsold for long.

Invariably, when we publish our advertisements and catalogs and price lists, we will get multiple orders -- often as many as 10 or 15 orders for the same coin. Since nearly all items are one or two of a kind, we often must disappoint our customers with "sold out" letters and refund checks. This is certainly regrettable, but the alternative of pricing our coins higher to avoid multiple orders doesn't appeal to us, nor would we expect it to appeal to our customers.

Therefore, all we can advise is to please order as soon as you can and list second choices if possible. Naturally, we will never use your second choice listing unless we are sold out of your first choice.

TELEPHONE SERVICE

You may reserve any coins from our advertisements or catalogs by telephoning us Monday through Friday between 9:00 a.m. and 6:00 p.m., E.S.T. at (617) 879-7711. On orders of $100 or more, you may use our toll free WATS line (800) 225-3858 from anywhere in the Continental United States except Massachusetts.

MASTER CHARGE and BANKAMERICARD are welcome, however, we request that a written order is sent which must contain your signature as it appears on your card along with all the raised information. You may call to reserve items to be paid for by credit cards, but the coins will be held pending receipt of your written order.

A WORD ABOUT QUALITY VS. PRICE

All coins sold by New England Rare Coin Galleries are graded by the strictest of standards, and priced competitively. However, at times our prices may seem higher than those of other dealers. The fact is that there is no Santa Claus in numismatics (as Virgil Hancock has so often said). Always beware of a coin at a seemingly "bargain price" for it will seldom turn out to be what it is supposed to be. When you order from us, you are assured of a CORRECTLY GRADED coin, at a fair price, every time.

1807 Heraldic Eagle. Gem BU, MS-70. Here at New England Rare Coin Galleries, we have handled many finest knowns of different dates and varieties. We have even gone as far as to describe coins as the finest of a type that we've ever handled. However, here is a first! We feel that we can say without hesitation that here is probably the finest example (of any date) of a major United States type coin. Certainly we have never seen one that even comes close. This coin is 100% fully struck down to the center of each star. There is not a bagmark to be found anywhere on the coin. The lustre is not broken anywhere and there isn't a hint of rub. It is simply a fantastic coin in every respect, and this is not a coin which one would expect to ever see in this condition. We, ourselves, paid a five-figure price for the coin, so the price to you is expensive. However, we doubt if a comparable coin will ever be available for sale. ... 12,500.00

OUR SILVER DOLLAR GRADING

CHOICE AU (AU-50+ to AU-55) with nearly full mint lustre.

BORDERLINE UNC. (AU-55 or better) will have full frosty mint lustre, full hair and breast feathers, and only a touch of rubbing. Many of these have never seen any actual circulation.

BU (MS-60) are strictly so, and will be at least average strikes with normal bagmarks. Horrible strikes or excessive bagmarks will be noted separately.

CHOICE BU (MS-60+ to MS-65) are fully struck BU coins with far fewer bagmarks than usual. Most dealers call these Gem BU. Some call them MS-70 or whatever.

GEM BU (full MS-65 or better) are fully struck BU coins with an absolute minimum of bagmarks. Dollars are seldom found any better, and when they are, they will bring enormous premiums -- sometimes 3 - 5 times the price we charge for this quality.

Occasionally we will describe a coin as MS-70. We do not use this term loosely. MS-70 coins are as close to perfect as could exist, and MS-70 examples are rare, even of the commonest dates. (Though we often see dealers offer dollars as MS-70 that really aren't.)

THE 1866 "NO MOTTO" DOLLAR - ATTRACTIVELY TONED PROOF

This very coin was called by Stack's "perhaps the rarest U.S. silver coin."

This very coin was owned by a virtual "Who's Who" in American Numismatic history (F.C.C. Boyd, Colonel E.H.R. Green, King Farouk, Samuel Wolfson, Charles Jay and others).

This coin is "semi-unique", in that there are two specimens known, but one was stolen nearly a decade ago and the whereabouts of it are unknown. The fabulous Louis Eliasberg Collection, considered the only "complete" U.S. coin collection, is MISSING an 1866 No Motto Dollar.

There are 15 1804 dollars known today; there is only one 1866 No Motto dollar known today.

There are 5 1913 Liberty nickels known today, there is only one 1866 No Motto dollar known today.

There are a handful of U.S. coins which have realized over $100,000. Some have realized over $200,000. There are two which are currently being offered at $300,000. None of them approach the rartiy of the 1866 No Motto dollar.

We, at New England Rare Coin Galleries, feel this is the most underpriced United States coin currently on the market. Below are some of the reasons why.

When this coin was last offered at public auction in the Winner Delp Sale, it was described as follows by Stack's, the cataloguer of the sale:

"1866 No MOTTO, BRILLIANT PROOF. This is the famous Jay specimen which was formerly the Wolfson example, first offered for sale at Public Auction in the United States at our Fairbanks Sale in 1960. ... When we described this coin in our Wolfson Sale, we noted that 'the only time this coin had been offered in a public Auction, prior to the Fairbanks Sale in 1960, was in Cairo, Egypt when King Farouk's Collection was sold.'

This is the fourth time we have handled this same coin and its pedigree is well known. It is initially traced to the Woodin Collection, then to the F.C.C. Boyd Collection who relinquished it to Wayte Raymond. It next passed to Col. E.H.R. Green and upon his death back to F.C.C. Boyd. King Farouk (via an American agent) became the next owner. The coin then passed to the Fairbanks Collection where Mr. Samuel Wolfson acquired it and when the Wolfson Collection was sold, Mr. Charles Jay became the proud possessor. Mr. Delp purchased the coin at our Jay Sale.

This coin is perhaps the rarest U.S. silver coin. It is surely on par with the 1893-CC No arrows Dime and the 1804 Silver Dollar. THE PRICE HISTORY OF THE 1866 NO MOTTO DOLLAR CAN BE COMPARED WITH THE 1804 SILVER DOLLAR, AS FOR ALMOST A DECADE THEY WERE RUNNING MATES. There is a good cause to believe that the progression of value will continue for this great rarity.

It is with understandable pride and pleasure that we again offer this coin at Public Auction to the entire collecting fraternity."

The coin was purchased in that sale by one of America's leading dealers for $32,000. Some of the other rarities in that sale included a 1795 Flowing Hair Dollar, Choice BU, fully P-L for $3,500 (present value $25,000+), an 1884 Trade Dollar, cleaned Proof for $17,000 (present value of about $50,000), an 1808 $2½ Gold piece EF for $5,000 (present value

about $15,000), a Proof 1848 CAL $2½ for $7,750 (currently advertised at $65,000), a Gem 1880 Coiled Hair Stella for $35,000 (present value $125,000 to $150,000), an 1856-O $20 Gold EF+ for $8,500 (present value $40,000+) and many others of approximately the same appreciation. These examples were selectively cited, but offer a realistic representation of the market at that time.

Refer to page 150 of the *BLUE BOOK* where this coin is referred to as a transitional pattern. Actually this is incorrect, for it is of the same design as the preceeding issues rather than that of the succeeding issues. (To illustrate: An 1865 With Motto Dollar would be an example of a pattern issue. The 1866 No Motto Dollar falls into the same category as a 1913 Liberty Nickel or an 1804 Silver Dollar.)

Stack's compared the present coin's value to that of an 1804 Silver Dollar (currently valued in the $200,000 range). We feel we have priced the coin conservatively in order to sell it quickly. Here is really a once-in-a-lifetime opportunity to acquire one of America's greatest rarities. It will be sold to the first caller for

$97,500.00

THE 1884 TRADE DOLLAR

A choice, beautifully toned specimen, last sold in the Pelletreau Sale (Stack's) in 1959. Glittering Choice Proof, and one of only ten struck.

In that sale, this coin was described as follows:

"1054. 1884 Trade Dollar. A beautiful BRILLIANT PROOF with raised borders, sharp stare and sharply defined eagle. This great rarity is from the Will W. Neil Collection lot #296 sold in 1947. It was also in the famous Atwater and Roe Collections. These coins were discovered at the turn of the century by a Philadelphia dealer. At that time the dealers guessed that there were ten struck. After reviewing the various sales records and private collections it is now assumed that there are not more than five or six coins known."

We feel that the original estimate of ten struck is probably correct, and it is now considered as official mintage figure. At least nine, and possibly all ten specimens are known, but only four or five are in Choice condition, such as the specimen offered here. In fact, every dealer to whom we showed this coin and our 1885 Trade Dollar, agreed that each was the finest of the date that they had seen.

The 1884 Trade Dollar is in approximately the same rarity class as the 1894-S dime (10-12 known of 24 struck - recently sold for $97,500.00), the 1876-CC 20¢ piece (12-14 known of 10,000 struck - currently being advertised at $100,000.) and the 1838-O half dollar (10 known - an impaired specimen recently sold for $50,000.).

If anything, the 1884 Trade Dollar is rarer than any of the examples above, and further enhancing its value is its fantastic condition. We are certain that this coin will prove an outstanding investment for its new owner. It is certainly an excellent value at our conservative price.

This Choice, beautifully toned specimen, Ex. Pelletreau, Neil, Atwater and Roe, probably the FINEST KNOWN example, is now available from us.

THE FABULOUS

1885

TRADE DOLLAR

This splendid specimen was last sold publicly in the Baldenhoffer Sale (Stack's) in 1955. It is a glittering Choice Proof example with beautiful natural toning. One of only five specimens struck.

In the Baldenhoffer sale, our coin was described as follows:

THE EXCESSIVELY RARE 1885 TRADE DOLLAR

The Trade Dollars of this date were said to have been discovered in the proof sets of that year. Stack's has had the pleasure of selling some of the foremost collections in America and we are quite accustomed to rarities. However, this is only the second we ever handled. The first was sold by us privately in 1942. This specimen we are now offering is the first to be sold by us at public auction. While records of amount made are not available, in our opinion we do not believe that there are more than five of these in existence, possibly fewer. This coin can be classed as rare as any other great American Silver Rarity. The fabulous Dupont Collection lacked this coin. We would not be surprised at any record price established. This coin is a splendid Brilliant Proof, slightly toned."

Five struck is now the officially accepted figure, and all five specimens are known. However, three of these are permanently impounded in famous major collections (Eliasberg, Amon Carter and Norweb). The other specimen, last sold in 1965 (Ewalt sale - Stack's) was impaired. This is now the only Choice, COLLECTIBLE specimen of this date.

The 1885 Trade Dollar is one of America's greatest rarities that is currently for sale. We note the recent sales of an 1804 silver dollar (15 specimens known) and a 1907 MCMVII Extremely High Relief (12 - 14 specimens known) both for amounts reportedly in excess of $200,000. The 1885 Trade Dollar is more than twice as rare as either of these.

The 1885 Trade Dollar offered here is in the finest possible condition. It is equal or superior to all other known specimens. The only other collectible specimen was abrasively cleaned and has severe hairlines. This specimen is a Choice, beautifully toned Proof - absolutely an unimprovable coin! The dealers we showed it to considered it to be the finest known.

The 1885 Trade Dollar is one of the most infrequently offered of all U.S. coins. No 1885 Trade Dollar has been offered for sale since 1965 (Ewalt). No Choice one since 1955 when this one was last sold.

Meanwhile, four extremely high relief double eagles have been sold in the past few years. 1804 Silver Dollars are offered for sale virtually every year. At least three 1913 Liberty Nickels have traded hands within the past decade. Yet, to our knowledge, only two 1885 Trade Dollars had been sold from 1942 until we purchased this one in August of 1974!

The 1885 Trade Dollar is one of the most famous, romantic, and well-established of all U.S. coin rarities. It is NOT a pattern issue or a recently-promoted "rarity". It is undisputedly one of the rarest collectible regular issue silver coins.

It is almost impossible to say what this fabulous coin will bring in the future, but it is a virtual certainty that its new owner will realize a substantial profit should he ever decide to sell the coin. This has been the case with nearly all great numismatic rarities. Furthermore, there is the tremendous satisfaction (and often fame) that comes from ownership of a classic rarity.

We proudly offer this Choice, beautifully toned specimen for sale.

CONSIDER PUBLIC AUCTION!!

If you have a collection of coins consisting mostly of individual items worth $100 - $1000 or more, you may do better at public auction. Frankly, there are cases where public auction is NOT the way to go. But in many cases, you CAN realize the best possible prices via the auction route.
We will be happy to discuss the dispersal of your holdings, and give our recommendations. Complete auction service is available through our affiliate company, NEW ENGLAND RARE COIN AUCTIONS. Call toll free 1-800-225-3859.

CALIFORNIA GOLD

California Gold coins are among the most interesting coins of American Numismatics, yet also one of the most ignored. Ignored, that is, until recently. The "Beck" Sale, one of the most important numismatic events of all times, has changed that, and for good reason.

In the "Beck" Sale, California Gold coins sold for prices that can only be called astonishing. Yet, whenever such a precedent is set in numismatics, it is only a short time until astonishing prices become bargains. I can remember sitting in the Winsor Delp sale in late 1972 and hearing such "incredible" prices as a 1908 No Motto $10 in Gem BU bringing $440, and an 1856-O $20 in EF-45 realizing nearly $6000. I also heard gasps of disbelief. These would be incredible prices today, also. Incredibly cheap! I can foresee the same thing happening to California gold coins; this series has been overlooked much too long, and the interest is snowballing quickly.

California Gold coins were born out of necessity, as there were not nearly enough coins available from the U.S. Mint to meet the demand. Gold dust and nuggets were traded freely, but not always to the satisfaction of all involved. When military Governor Mason (of 1848 "Cal" Quarter Eagle fame) agreed that coins "Can be wrough into a convenient shape" for use as exchange, the rush was on (so to speak) and after a few legal hassles Cal Gold became a way of life.

There are several major types and many minor varieties of these coins available. All coins have been attributed from Kenneth Lee's book "California Gold."

The rarity scale can be interpreted as follows: Rarity 4: 1 to 3 pieces known; Rarity 3: 4 or 5 pieces known; Rarity 2: - 6 or 7 pieces known; Rarity 1: 8 to 10 pieces known.

In cases where no rarity number is given, the coin can be assumed to be relatively common. Of course some will be much more common than others.

There are quite a few ways to collect California Gold coins, whether by type, date or die variety. It is a fascinating facet of numismatics, and at current price levels, I urge the purchase of California Gold coins as an investment.

COINS OF THE WORLD

With this catalog, New England Rare Coin Galleries is making its first serious foray into the field of rare and choice world coins. In past catalogs, we have featured world coins which were purchased incidental to the acquisition of large U.S. collections or accumulations. While these included a number of choice coins, now New England Rare Coin Galleries has a full-time world coin specialist devoted to building a uniformly superb stock of desirable world coins.

As a result, New England Rare Coin Galleries will be rapidly expanding its world coin division in the months ahead. Our emphasis, as always, is on quality, and our developing forte is the European and British Commonwealth numismatic field.

What this means to you is that New England Rare Coin Galleries has the capability to offer you its service in foreign coins in the same professional style and honest manner that you have come to expect from the U.S. coins division. You now have the opportunity to expand into world coins, either to diversify your investments, or as a collector of the choice and beautiful coins issued by the many nations of the world. We believe that we can introduce you to numismatic fields which offer the combination of world history, and rare and attractive coins at the basement level prices found in United States coins ten years ago.

We welcome your inquiries.

Looking forward to being of service to you in the future, I am

Consequently, we believe that if we don't have a particular item in stock, many times we can find it for you at a fair market price.

WANTED TO BUY
Choice and Rare Coins of the World

Every dealer says he pays the highest prices (including us). Please ship any better coins with your desired price or for our offer and see who pays the fairest prices.

NEW ENGLAND RARE COIN GALLERIES

NEEDS TO BUY COINS, TOO.

Coin collectors and investors are faced with a dilemma when it is time to sell. Who should the coins be sold to? What method should be used? (Outright sale for cash? Auction? Private treaty consignment?). And most important, the collector usually wants to go to a reliable dealer where he is assured of the best possible deal. Many collectors and dealers are learning that New England Rare Coin Galleries is just that place.

N.E.R.C.G. purchases hundreds of thousands of dollars in rare coins each month for cash. As the demand for rare coins exceeds the number that collectors and investors can supply us with, we must purchase many (well over 75%) of our coins from other dealers. These are coins which they purchased from collectors at sub-wholesale prices to sell to us! Why not go where top dollar is being paid - to N.E.R.C.G.. Dealers do, why not you?

Our buying interests are not confined to choice and rare U.S. coins. Members of our staff have purchased some of the finest paper money collections sold in the past five years, and our staff is knowledgeable in (and eager to buy) rare foreign crowns, minors, and gold.

As coin retailers, we are able to pay top dollar. We have collectors ready and waiting for your rare coins, and we're ready to pay more to get them.

If you do not choose to sell your coins outright, we offer the services of the newly formed New England Rare Coin Auctions. Every auction will be given heavy exposure and catalogued expertly by our staff. Cash advances are available if you wish.

Occasionally, a situation arises where neither outright sale nor auction is the answer. Private treaty sales are sometimes executed by N.E.R.C.G. for a small commission. (We recently sold a mint error for a client for which he recieved nearly six thousand dollars!) If you have a rare coin, the odds are 99-1 we have a customer for it. If you have a collection, large or small, we definitely have the best facilities to handle it, no matter what means you prefer. (We'll be glad to advise you of the best means of disposing of your collection if you wish.)

No matter how large your collection, we are financially able and numismatically knowledgeable enough to handle it. If you know of a collection for sale, we will be happy to pay a generous finder's fee for your assistance in directing us to it. And, even if the "collection" involves only one major coin and nothing else, we're eager to buy it! In fact, the highest price ever paid for a single coin in the history of the American Numismatic Association Convention was paid by N.E.R.C.G.!

To put it simply, we are serious buyers of rare coins. We are famous for paying top prices in the industry: no one pays more! We want to buy coins, we *HAVE* to buy coins. If you are ready to sell, contact New England Rare Coin Galleries. Call toll-free 800-225-3858 or in Massachusetts collect, 617-879-7711, to set up a time for us to view your collection.

American Numismatic Association

a nonprofit educational association founded in 1891

At Home

ANA membership makes it easier for you as a collector to make a serious study of the area of numismatics that interests you — to build up a real knowledge of your specialty while you are building your collection.

• **The Numismatist,** the Association's official magazine, is mailed free each month to all members except Associates. The editor publishes the best feature articles available on popular phases of collecting, identifying, and caring for money, tokens and medals. Most issues have 176 or more pages, with top quality illustrations. You will read of newsworthy men and collections, new coin issues of the world, new books, fakes that can hurt your collection, and editorial comments and Association news. **The Numismatist** accepts advertisements from members only, whose reliability is outstanding, and who agree to abide by the ANA Code of Ethics and Bylaws.

• When you are a new member, you receive without charge a copy of the 48-page **Introduction to Numismatics,** and the **Dictionary of Numismatic Terms.** Reprints of many articles from past issues of **The Numismatist** can be purchased.

• Use of the largest circulating numismatic library in the world is one of your privileges as a member. The only charge for borrowing reference books is the postage round-trip from Colorado Springs.

• A museum with displays and study collections is being developed in the Colorado Springs headquarters. Visitors are welcomed.

• The Association, in cojunction with Colorado College, conducts a week-long seminar every July covering a variety of subjects. The modest tuition includes room and board, field trips, lectures by noted authorities, and use of college facilities. Write for further details.

• Several insurances, such as on numismatic collections, hospital money plan and life, are available to members. Being group insurance, the costs are lower than on comparable individual policies. All plans are administered for ANA by a long-established insurance agency.

Abroad

ANA membership makes it more fun to collect coins — to display what you know and have and make friends who share your interest.

• If you give talks or make displays, your local coin club can send for ANA certificates of award for you. You can widen your activities to include state or regional coin shows and conventions.

• Each year for five days in August, the ANA national convention is held in some major city where there are enough hotel rooms and floor space for displays and the trading bourse. There you will attend a national auction, see world famous collections, compete for display awards yourself, listen to educational forums, meet collectors from everyplace, attend the business and award sessions of your Association, and enjoy social events. In the 100-table bourse room you will meet dealers whose names are already familiar to you and see their choicest items for sale. Local ANA members arrange trips and parties, and the convention ends with the traditional banquet.

• For young collectors, the ANA reserves special categories in the National Coin Week competitions and in conventions exhibits, publishes well-written articles, and gives awards for outstanding numismatic accomplishments.

• While not a guarantee of integrity, ANA membership does establish you as a collector of record and serves as an introduction to other members. The low-cost silver or bronze membership medal is engraved with a member's name, number and date enrolled. You can order membership buttons and jewelry and an emblem to use on stationery or as a rubber stamp.

Your Interests

The ANA is internationally recognized as the spokesman for organized coin collecting. It acts to represent collectors' interests both in promotion of desirable work and events, and in suppression of adverse conduct and practices. Its coveted awards recognize outstanding enterprise and services to numismatics. At the same time, a Code of Ethics is binding on each member. The Code of outlines principles of moral conduct that collectors and dealers should follow in contacts with one another, and a breach of the Code by a member is considered cause for disciplinary action by the Board of Governors. A reward fund pays up to $5,000 for information that leads to arrest and conviction of anyone who steals a member's numismatic items.

Facts

The ANA operates in accordance with a Federal Charter first granted by an Act of Congress in 1912, then made perpetual in 1962. The principal office is in Washington, D.C., but operations are centered in a headquerters building owned debt-free in Colorado Springs.

• A Board of Governors, including President and Vice President, is elected every two years and serves without pay. These officers and members of advisory committees, may live anywhere. The professional staff in Colorado Springs on full-time salaries includes an Executive Director, Editor, Advertising Manager, Librarian and Museum Director.

Memberships

A $5.00 application fee for Regular membership is payable with the first year's dues of $8.00 with the application. This fee is not required for Juniors under 17 years of age nor for Associate or Life Members. Associates wishing to transfer to Regular membership must apply therefore as new applicants but retain their original numbers. Dues for the second calendar year of a new member are adjusted to give credit for any months missed the first year. Only persons 21 years of age or older are eligible for Life membership. Junior Members become Regular Members automatically at age 18.

Names of applicants (but not necessarily addresses) are published in **The Numismatist** in the second issue following date of receipt. If no objections are received within 30 days the applicant is admitted and a membership card for the current year is sent to him. In case of objections, the procedure specified in the By-laws is followed.

The American Numismatic Association, founded in 1891, is the largest and most active organization for coin collectors in the world. It is a nonprofit organization chartered by Congress. Most of its 25,000 carefully selected members are adult residents of the United States, but several hundred live in other countries, and its Young Numismatists are active and enthusiastic. The ANA welcomes to membership all persons of good character, 11 years of age and over, who have a sincere interest in collecting and studying coins, paper money, tokens, medals and other numismatic items. The dues are low, the prestige and services that go with the privilege of membership have great value.

RARE COIN INVESTING -

CAN WE REALLY HELP?

There are many dealers today offering coin investment packages. So why choose New England Rare Coin Galleries? Are we really "better" than anyone else at picking investment winners, or is it just a blind guess? At N.E.R.C.G., the "blind guess" is never a factor in our decision on what to send you; a comprehensive knowledge and understanding of the coin market *is* a factor, in fact, the primary factor.

In the last several years, the coin market has been so good one would have been hard-pressed to pick a loser. However, assuming a dizzying upward spiral in nearly every issue cannot continue forever (a safe assumption, to be sure), then what exactly does a sound and sane investment in the rare coin market entail? N.E.R.C.G. has the answer. A *sure* winner every time? Impossible! The best possible chance for investment growth in rare coins? Every time!

Why? First of all, N.E.R.C.G. does not recommend coin investment if you cannot hold for at least 3-5 years. This policy does eliminate the "in and out" quick profit on short term, highly speculative items, but if you are able to consistently pick winners in these items, then you don't need us anyway. This also eliminates the "promotional" items, where "quick money" is also made. But more importantly, it also eliminates the large losses also associated with these issues. During the so-called "downward cycle" of late 1965 to 1969, we know of an investor who made 411% on coin investments. He was not omniscient, only sensible; lucky certainly, but also very well informed. We don't promise or even wish to imply that you can expect such remarkable success, but our experience and guidance in the rare coin market will give you an excellent chance at nice profits while enjoying the beauty, historical interest, and overall value of rare coins.

What you do receive and do *not* receive in your investment packages, is of equal importance. You will receive rare coins of outstanding quality, graded correctly and priced fairly. Each coin is personally selected for you by veteran numismatic investment counselors. You will not receive rolls of late date coinage, recently issued proof sets, medals of any kind, modern restrikes, low grade semi-scarce issues, or "tail-end" of "over-stocked" issues. For instance, most coin collections we purchase include some outstanding coins and some not-so-outstanding. We do not pick out the best for our ads and "dump" the remainder on on investment customers; every coin in every package is from our regular rare coin inventory. If we purchase a collection which includes a large quantity of one particular coin, we won't send every investor one just to get rid of it. Each coin is selected because we feel it has excellent investment potential. No coins are included in which the value is primarily based on intrinsic value as such coins fall into the "short term" investment category and do not serve your purpose and objective of [illegible] investment.

In a few short years, N.E.R.C.G. has grown into New England's largest and most active coin company. We are a leading source of rare coins for many major coin companies, and several times, our sales to other dealers at a single coin show have totalled well into six figures. By buying from N.E.R.C.G., you *too* can buy from the source. We have handled some of the top rarities in all of numismatics. In fact, members of our staff have bought and sold every gold dollar except the 1849 C Open Wreath, every quarter eagle date ever issued, every three dollar gold except the 1875, every $5 gold piece from 1828 to 1929 except the 1841-O and 1854-S, and every $20 gold piece except the 1884, 1861-P Pacquet, and 1927-D. With such exposure to rare coins comes expertise, and the staff of professional numismatists at New England Rare Coin Galleries in unexcelled.

Many investors have encountered problems ordering investment packages from other dealers - problems they would never encounter at N.E.R.C.G. For instance, one investor ordered from several companies and the following happened. From company #1 he received a gold commemorative at the "wholesale" price. Had the coin been accurately graded, it would indeed have been a fair price. However, the coin was overgraded a full grade and was only worth about 60% of the asking price. From company #2, he received 2 modern common coins which were accurately graded but overpriced a full 35%. While it is difficult to put an *exact* value on rare coins, these coins were such that an *exact* value could be placed, as they were a modern issue. Anyone could purchase one or one hundred of these coins at 35% less. From company #3 he received nothing. Not until four months and three letters of inquiry later did he finally receive any coins at all! A neat story which serves our purpose, admittedly, but also a true story, as a member of our staff was the "investor" involved. None of these things would ever happen with a N.E.R.C.G. investment package. First of all, each coin is accurately graded personally by company president, Jim Halperin. Secondly, the coin is priced, fairly and competitively, but with the accurate grade taken fully into account. Finally, when your check is received, your coins are shipped promptly. Always. There are no exceptions.

When the coin investor is ready to sell, there are many avenues open to him. If he wishes to sell the coins to us, or through us, we offer our own auction service, New England Rare Coin Auction. A private treaty sale can also be arranged where we will sell the coins for him for a small commission. Or, if he prefers, we will purchase the coins outright for cash. Buying or selling, the customer is always treated fairly at N.E.R.C.G., and we strive to give him exactly what he wants.

The services N.E.R.C.G. offers are many, as complete as possible, and we are one of the few rare coin companies which offers coin investments applicable to the Keogh Act, which provides our customers with a sizable tax advantage. In addition, profit-sharing and pension plans are available for funding with rare coins. Investors large and small have the best chance at sizable profits in rare coin investments when they deal with us, as we provide our customers with every possible aid.

No name in numismatics is more respected than New England Rare Coin Galleries. This reputation has been built on accurate grading, fair, realistic prices, excellent service, and overall high business eithics. We have become "the company to see" when seeking rare and choice coins, and our success has been not only in New England, but nation wide.

In addition, in our programs, we provide you with background information on each coin so you know precisely what you have purchased. An explanation of grading (with reference to any special characteristics of this particular coin, such as striking, etc.) and the reason for pricing the coin the way it was priced are also provided.

We also pride ourselves on our expertise in authenticating rare coins. This is very important, as there are many counterfeit coins which we can easily detect because of die characteristics, color, strike, and surfaces - characteristics which can only be spotted by an experienced student of numismatics. Members of our staff are frequently consulted by museums, government agencies, and other dealers for assistance in coin authentication. Every coin sold by N.E.R.C.G. carries a lifetime guarantee of authenticity.

Many of our investors have ordered from us for years, and have shown excellent to amazing profits. We value these customers greatly, and we are happy to say many have told us we are equally valued by them for our counselling and for the high quality and value in rare coins that they have received. The world of numismatic investment awaits you, and New England Rare Coin Galleries would be glad to show you how we can help.
